

7-Day Camp / Proposed Itinerary - Service Focus

Our camps run year round and we cater to groups of children who are aged between 7 and 17. We offer programs for school groups and individual campers, along with family camps where parents and children can learn alongside each other. The duration of the camps can range from half day visits to intensive week long residential experiences.

Bamboo Harvesting

What will campers **learn?**

Green Camp's mission is to **immerse campers in nature-based and transformative learning adventures to inspire sustainable ways of living.**

We take a holistic approach, and aim to support our campers to develop the skills they need to become leaders in the movement towards a world that works for all.

We break down our program into four pillars of learnings :

Sustainability Learning

Nature-Based Learning

Intercultural Appreciation

**Personal and Social
Development**

Our Four Pillars of Learning

Sustainability Learning

We feel that the essence of Sustainability Education is to guide children to tap into their innate capacity for systems thinking. Our learning environment is designed to cultivate in campers the understanding that everything is connected and our actions on this planet have consequences. Campers learn to be mindful of the impact of their actions on the natural environment and each other. The UN Sustainable Development Goals underpin the camp curriculum as a unifying framework for enhancing understanding of sustainability challenges, and to help us be more responsible global citizens.

Personal and Social Development

Navigating the inner world can be more challenging and confusing than getting lost and finding your way out of a dense forest jungle. Through a range of experiences campers are able to develop a deeper understanding of themselves and others. Campers have the opportunity to evolve their interpersonal skills and are challenged to move beyond their comfort zone. We offer the opportunity for campers to be engaged in collaborative experiences, learning to learn, live, work and play positively together.

Our Four Pillars of Learning (continued)

Intercultural Appreciation

We believe that the diversity of cultures in our communities should be deeply respected and understood. Bali offers a vast richness of culture and traditions which are integrated into Green Camp learning experiences. Diversity at the camp is celebrated, and the mutual exchange of ideas is encouraged. Relationships are built and strengthened as campers play and learn alongside each other.

Nature Based Learning

Full immersion in nature, with blurred lines between indoor and outdoor spaces, allows campers to fully experience their place in the natural world's rich biodiversity. It is through this connection that campers learn to care deeply about the world around them and become stewards for our planet. Natural and sustainable materials are used in experiences, allowing for exploration and supporting hands-on learning. The Green Camp experience offers a context for campers to 'rewild' themselves; remembering what we always knew about our connection with nature but have forgotten.

Green Camp learning experiences...

**RECONNECT WITH NATURE.
DISCOVER NEW SKILLS.
BUILD NEW FRIENDSHIPS.**

Accommodation - living in nature!

Yurt

Families and children who participate in our overnight programs will enjoy our Yurt Village located on the west side of our campus. The yurts are eco-rustic bamboo rooms filled with bamboo bunk beds that sleep up to 4 people.

- Thatched roofs.
- Weather-resistant canvas.
- Comfy bamboo bunk beds, blankets, towels.
- Cooled by a ceiling fan.
- Mosquito nets.
- Surrounded by organic gardens.
- Outdoor private enclosed showers and composting toilets.

Lodge

The Lodge is available for larger groups and has two floors which are split into female and male.

- Comfy bamboo bunk beds, blankets, towels.
- Best suited for large school groups.
- Common area inside the Lodge.
- Cooled by ceiling fans.
- Mosquito nets.
- Individual lockers.
- Bathrooms and showers located just outside of t
